Restaurant week this year is April 6 -11. So I am going to visit some of the restaurants that Bill and I have enjoyed over the 15 years we have lived here. First of all if you are interested in restaurant week, you can find information concerning it at https://www.poconomountains.com/pocono-restaurant-week/ You can even download the app for the week and it will list all of the participating restaurants and their specials for the week; This is a great way to get to know about the area eateries.

I am going to list some of the places Bill and I have visited. I am not listing the well know restaurants near us, just because you have probably already visited most of them. Many of them are not on restaurant week but they are still worthwhile visiting if you desire. I will group them in areas surrounding us.

Nearest to us:

Split Rock:

Sunset Green - This one is near us but many do not know that it exists. It is located at the Split Rock Golf Course. it is on the second floor with a great view, but do not be concerned, there is an elevator. They are open for lunch and dinner. https://www.sunsetgreenrestaurant.com/menus

Blakeslee:

Farmhouse Eatery - We just discovered this recently when we were locking for a different place to have breakfast. It was very good and service was great. They have different items than the normal eateries around. All food is by hand and from scratch with no additives. https://farmhousepoconos.com/

West of here -

Mountain Top:

Brass Buckle - We have eaten breakfast here, but we know others who have had lunch. Their ad says, Modern Mexican Restaurant but they carry some standard burgers and salads. https://www.brassbucklerestaurant.com/lunch-and-dinner-mountain-top

Drums:

Sugar & Loaf Bakery - They have breakfast and lunch menus. They are only open Thursday - Sunday. Their sandwiches are very good. All of their breads are their own. Be sure to take home some incredible baked goods. https://www.sugarandloafbakery.com/

Sugarloaf:

Sally Pursell's Country Inn - An American restaurant that has been around for a while. A quaint place with good food. It makes for a nice drive in the country with a stop for some good food. https://dandp444.wixsite.com/sallypursells If you leave the restaurant and take Mount Laurel Trail north you may have the opportunity to see Humphrey the Camel grazing on the farm on

your right. If you go up the driveway, the owner may allow you to spend some time with him. He is able to entertain you on his horn!!

North of here -

Moosic:

Dino & Francesco"s - They specialize in homemade Italian-American classics but have other items on the menu. We have been going there for years and it is always friendly, fast service, and really good food. You will almost always walk out with a meal for another day. https://dinosinmoosic.com/

Colarusso's Cafe - Another family owned Italian cuisine and pizza restaurant in Avoca. They have several other locations but the original one is the best. One of our favorites is their Fresh Tomato Pizza, but you do need to love garlic to really enjoy this item. Their dinners are delicious and once again you will walk out with another meal for the next day. https://colarussos.com/

East of here (and some northeast) -

Tannersville:

Barley Creek Brewing Company - We visited this when we first moved here. It has expanded since then. It is a typical brewery with a bar menu. The food and service are very good. https://www.barleycreek.com/our-history

Stroudsburg:

The Moor: Stroudsmoor's Restaurant - This is a fine dining restaurant serving lunch, brunch, and dinner. They have both buffet and table ordered items. Their food is very good and the atmosphere is pleasant. Just to note, they also have a small place in town on Main St. where you can grab baked goods and a cary out meals for breakfast or lunch. https://www.stroudsmoor.com/restaurant/

The Willow Tree - Located on Ann Street in Stroudsburg is a delightful place for a great meal. It sits along McMichael's Creek near a giant willow tree which makes for a very pleasant setting.They serve lunch and dinner. https://thewillowtreeinn.net/

Cresco:

Frogtown Chophouse - This is a good place for special occasions. It serves hand-cut steaks, local butcher selections, crab cakes, pork selections and more. The location allows for a nice drive there and pleasant surroundings. https://www.thefrogtownchophouse.com/

Hawley on Lake Wallenpaupack:

The Boathouse - They serve simple classics and are located right on the water. I like their Maryland Blue Crab Roll and even their Lobster Roll. Another restaurant that is a nice drive and a chance to check out Lake Wallenpaupack. https://www.facebook.com/TheBoatHouseRestaurant.Hawley/

The Dock - This is also on the lake and has even better views of the lake. Their food is very good. This place is quite different from the first time we visited it. They have really updated it. But the food is still good if not better. https://www.facebook.com/TheDockonWallenpaupack/

South of here -

Tamaqua:

Tamaqua Station Restauant - I mentioned this one last month in my Daytripping. It is a very good place to eat and you may be lucky to see the train pass by while you are eating. https://www.tamaquastation.com/

Hope you get a chance to check out some of these eateries either during restaurant week or this spring and summer as the weather gets warmer.
